

Felipe Herrera

Department of Physics, Universidad de Santiago de Chile USACH. <https://fherreralab.com/>
Av. Víctor Jara 3493, Estación Central, Santiago - Phone: (+56 2) 27181203 - Email: felipe.herrera.u@usach.cl

Academic Experience

Universidad de Santiago de Chile , Department of Physics. Associate Professor.	Since 2024
University of Waterloo , Department of Mechanical & Mechatronics Engineering. Adjunct Associate Professor.	2025 - 2028
University of Exeter , Department of Physics and Astronomy. Royal Society Wolfson Visiting Fellow.	2023 - 2024
Universidad de Santiago de Chile , Department of Physics. Assistant Professor.	2019 - 2024
Universidad de Santiago de Chile , VRIDEI – Department of Physics. Associate Researcher.	2014 - 2019
Harvard University , Department of Chemistry and Chemical Biology. Postdoctoral Researcher.	2012 - 2014

Education

University of British Columbia , Ph.D. Chemistry	2007 - 2012
Universidad de Chile , B.Sc. Chemistry	2007 - 2002

Honors & Awards

Member Royal Society of Chemistry	2025
Royal Society Wolfson Visiting Fellowship	2022
Award <i>Inserción en la Academia</i> PAI, Conicyt	2014
Four Year Fellowship, University of British Columbia	2009
Gladys Estella Laird Fellowship, University of British Columbia	2007
Best Student of Chemistry Award, Universidad de Chile	2007

Grant Funding

- ANID Fondecyt Regular **2026-2030** [US\$178,000, **PI**]
- US Air Force Office of Scientific Research (AFOSR) FA9550-22-1-0245, **2022-2024** [US\$151,000, **PI**]
- ANID Fondecyt Regular **2022-2026** [US\$280,000, **PI**].
- ANID FONDEF IT20I0127, **2021-2023** [US\$ 456,000, **co-PI**].
- ANID-ECOS Collaborative Grant (Chile-France), **2021-2023** [US\$20,000, **co-PI**].

- US Office of Naval Research Global (ONRG) CSP N62909-20-1-2005, **2019** [US\$ 14,500, **PI**].
- ANID Millennium Institute for Research in Optics (MIRO) **2018-2028** [US\$ 16,130,000, **co-PI**].
- ANID Fondecyt Regular **2018-2022** [US\$290,000, **PI**].
- CORFO Technological Contracts for Innovation. **2018-2020** [US\$ 290,000, **co-PI**].
- Conicyt PAI **2014-2016** [US\$ 69,500, **PI**].
- Conicyt Fondecyt Iniciación **2014-2016** [US\$ 72,500, **PI**].

Academic Service and Leadership

□ Conference Organization

- “4th Workshop on Molecular Quantum Technologies”, Puerto Varas, Chile, Dec. 2026.
- “3rd Workshop on Molecular Quantum Technologies”, Puerto Varas, Chile, Dec. 16-20, 2024.
- “2nd Workshop on Molecular Quantum Technologies”, Puerto Natales, Chile, Dec. 12-16, 2022.
- “1st Workshop on Molecular Quantum Technologies”, Puerto Natales, Chile, Dec. 16-20, 2019.
- APS March Meeting DCP Focus Session “Strong light-matter coupling: Enhanced spectroscopy, modified molecular dynamics and altered chemical reactions”, March 5-9, 2018.
- “2nd International Workshop on Quantum Coherence and Decoherence”, Medellin, August 25-29, 2014.

□ Editorial Service

- Philosophical Magazine C, Quantum Materials and Devices, Associate Editor, 2023 – 2026.
- ChemRxiv Preprint Server, Scientific Advisory Board, 2023 – 2025.
- The Journal of Chemical Physics, Editorial Advisory Board member, 2022 – 2024.
- Proceedings of the National Academy of Science (PNAS), Ad-hoc Editor 2022.

□ Journal Review

Physical Review Letters, Physical Review X, Science, PNAS, Nature Physics, Nature Communications, New Journal of Physics, Physical Review A, Journal of Chemical Physics, Reports on Progress in Physics, European Journal of Physics D, Molecular Physics, Scientific Reports, Physics Letters A, Optics Express, JACS, Chemical Reviews, Journal of Physical Chemistry Letters, Nano Letters, Chem, Journal of Physical Chemistry C, RCS Advances, Chemical Science, Optik, Physics Letters A, Quantum Science and Technology (IOP), Advanced Quantum Technologies.

□ Grant Review

ANID Fondecyt (Chile), ANID Fondef IT (Chile), ANID Magister (Chile), DOE Early Career (USA), AFOSR (USA).

Student and Early-Career Mentoring

- **Postdoctoral (6)**: Rubén Fritz, Federico Hernández, Johan Triana, Thulasi Bikku, Adrián Rubio, Samir Das.
- **PhD Students (5)**: Mauricio Arias (2023), Katy Aruachan (c), Athul Rema (c), Felipe Recabal (c), Gastón González (c).

- **MSc Students (5):** Simón Paiva (2022), Gastón González (2021), Felipe Recabal (2022), Vanessa Olaya (2020), Jonathan Sepúlveda (2020).
- **Undergraduate Students (11):** Jonathan Sepúlveda, Iván Jara, Simón Paiva, Gastón González, Felipe Recabal, Osmar Aravena, Andrea Alarcón, Bastian Martínez, Fernanda Véliz, Felipe Osorio, Diego Carvajal.

TEACHING

- **Undergraduate Physics:**
 - Electricity and Magnetism II: Third year electrodynamics for engineering physics.
 - Physics for Engineering: First year mechanics for civil engineering.
 - Physics for Computer Science: Second year E&M and quantum mechanics.
 - Electricity and Magnetism for Engineers: Second year E&M for civil engineering.
- **Graduate Physics:**
 - Atomic, Molecular and Optical Physics: Elective course for MSc and PhD physics.
 - Nanophotonics: Elective course for MSc and PhD physics.

INVITED PRESENTATIONS

1. "Large metal-organic framework single crystals for optical frequency conversion and optoelectronic modulation", SPIE Photonics West, San Francisco, January 17-22, **2026**.
2. "Theory of vacuum-assisted chemical reactions in infrared cavities", 55th Winter Colloquium on Physics of Quantum Electronics (PQE), Snowbird, January 5-9, **2026**.
3. "Atomistic decoherence of molecular spin qubits", Molecules and Mechanisms for Quantum Information Processing, Telluride, October 6-10, **2025**.
4. "Atomistic decoherence of molecular spin qubits", 4th Conference on Molecular Magnetism in North America, Tallahassee FL, February 28-March 3rd, **2025**.
5. "How do Chemical Bonds Break in Ultrastrong Coupling?", XII International Meeting on Photodynamics and Related Aspects, Santiago, November 11-15, **2024**.
6. "How do Chemical Bonds Break in Ultrastrong Coupling?", Mutual Chairlift of Chemistry and Quantum Computing, ACS Fall 2024, Denver, August 18-22, **2024**.
7. "How do Chemical Bonds Break in Ultrastrong Coupling?", 2nd Annual International Laser Physics Workshop, São Carlos, July 3-9, **2024**.
8. "Combining Chemical Physics with Quantum Optics for Solving the Open Quantum System Dynamics of Strongly Interacting Oscillators", JCP-DCP Editors Choice, APS March Meeting, March 3-8, **2024**.
9. "How do Chemical Bonds Break in Ultrastrong Coupling?", Quantum Light-Matter Center, Durham University, Nov 29, **2023**
10. "How do Chemical Bonds Break in Ultrastrong Coupling?", Chemical Physics Seminar, Fritz-Haber Institute, Nov 17, **2023**
11. "How do Chemical Bonds Break in Ultrastrong Coupling?", Optics Seminar, University of Warsaw, Faculty of Physics, Oct 26, **2023**

12. *"Modifying chemical reactivity via quantum coherence in infrared cavity QED"*, Workshop on Polaritonic Chemistry, Hamburg, Germany, Oct 1-4, **2023**
13. *"Controlling Chemistry with Cavity QED"*, Young Science Beyond Borders, Polish Young Academy (virtual), Jun 1-2, **2023**.
14. *"Steady-state chemistry of molecular ensembles in vibrational strong coupling"*, Molecular Polaritonics 2022, Straubing, Germany, Sep 12-14, **2022**.
15. *"Semi-empirical quantum optics for mid-infrared molecular nanophotonics"*, CINVESTAV seminar (virtual), July 19, **2022**.
16. *"Vacuum-assisted conductivity of organic materials in infrared cavities"*, GRC Electronic Processes in Organic Materials, Renaissance Tuscany Il Ciocco, Italy, Jun 26 - Jul 1st, **2022**.
17. *"Steady-state chemistry of molecular ensembles in vibrational strong coupling"*, CEAM Flagship Workshop on Polaritonic Chemistry, Bordeaux, June **2022**.
18. *"Controlled Cavity QED with Molecular Ensembles in Infrared Nanocavities"*, MRS Spring Meeting 2022, Honolulu, May **2022**.
19. *Exact chemical dynamics tools for scalable simulations of noisy superconducting resonator networks*, Pacificchem 2021, Virtual Conference, December 19, **2021**.
20. *Controlled Cavity QED with Molecular Ensembles in Infrared Nanocavities*, MRS Fall Meeting 2021, Boston, November **2021**.
21. *Vacuum and molecules for useful quantum advantage today*, Physics Colloquium, Ohio University, October **2021**.
22. *Controlled Cavity QED with Molecular Ensembles in Infrared Nanocavities*, SPIE Conference Metamaterials, Metadevices, and Metasystems 2021, San Diego, August **2021**.
23. *Chemical reactivities of vibrational polaritons in the ultrastrong coupling regime*, Strong Coupling in Organic Molecules (SCOM) 2021, Chalmers (virtual), April 27, **2021**.
24. *Molecular materials and devices for scalable optical quantum technologies*, Royal Society Frontiers of Science UK-Chile, London (virtual), March 29, **2021**.
25. *Anharmonic vibrational polaritons: spectroscopy and chemistry*, Polariton Chemistry Webinars, UCSD (virtual), January **2021**.
26. *Controlling the chemistry and dynamics of organic materials with quantum optics at the nanoscale*, International Conference on Materials Science, Valdivia, October **2019**.
27. *Vibrational polaritons in the ultrastrong coupling regime: spectroscopy and chemistry*, Workshop on Molecular Polaritonics, Madrid, July **2019**.
28. *Controlling chemistry with quantum optics at the nanoscale*, Centro de Óptica Cuántica e Información Cuántica, Universidad Mayor, June **2019**.
29. *Controlling chemistry with quantum optics at the nanoscale*, JILA seminar, February **2019**.
30. *Cavity quantum electrodynamics with organic matter*, 2nd Workshop in Optics and Photonics, Universidad de los Andes, December **2018**.
31. *Controlling chemistry with quantum optics in nanoscale cavities*, 10th International Meeting on Photodynamics and Related Aspects, Cartagena, September **2018**.
32. *Holstein-Tavis-Cummings theory of organic polaritons: Spectroscopy and chemistry*, 9th International Conference on Spontaneous Coherence in Excitonic Systems, Montreal, July **2018**
33. *Holstein-Tavis-Cummings theory of organic polaritons: Spectroscopy and chemistry*, Workshop "Quantum Frontiers in Molecular Science", Telluride, June **2018**.
34. *The physics of organic cavities*, Universidad de Chile, Santiago, November **2017**.
35. *Controlling chemistry with quantum optics in nanoscale cavities*, Fac. de Ciencias, Universidad de Chile, Santiago, July **2017**.
36. *Controlling chemistry with quantum optics in nanoscale cavities*, Centre for Quantum Technologies, Singapore, Feb. **2017**

37. *Controlling chemistry with quantum optics in nanoscale cavities*, SMART Centre, Singapore, Feb. **2017**
38. *Cavity-controlled chemistry in molecular ensembles*, CINV, Valparaiso, July **2016**.
39. *Cavity-controlled chemistry in molecular ensembles*, CEFOP, Concepción, June **2016**.
40. *Cavity-controlled chemistry in molecular ensembles*, Photodynamics, Mendoza, May **2016**.
41. *Cavity-controlled chemistry in molecular ensembles*, ICSCE 8, Edinburgh, April, **2016**.
42. *Controlling nonlinear optical response and chemical reactions in organic cavities*, Pacificchem, Honolulu, December **2015**.
43. *Matchgate quantum computing with cold polar molecules*, APS March Meeting, San Antonio, March **2015**.
44. *Matchgate quantum computing with cold polar molecules*, JILA, Boulder, December **2014**.
45. *Solid-state nonlinear quantum optics with organic polar molecular aggregates*, IWQCD II, Medellín, Aug **2014**.
46. *Controlled entanglement manipulation in cold molecular gases with strong laser pulses*, University of British Columbia, Vancouver, May **2013**.
47. *Controlled entanglement manipulation in cold molecular gases with strong laser pulses*, Kavli Institute for Theoretical Physics, Santa Barbara, March **2013**.
48. *Dynamical generation of entanglement in cold molecular gases using strong laser pulses*, Institute for Theoretical AMO Physics, Boston, January **2013**.
49. *Quantum control of binary and many-body interactions with cold molecules*, Quantum Center, University of California Berkeley, May **2012**.
50. *Tunable Holstein Hamiltonian with cold polar molecules*, Institute for Theoretical AMO Physics, Boston, September **2011**.
51. *Tunable Holstein Hamiltonian with cold polar molecules*, Institut für Theoretische Physik, Universität Ulm, Ulm, June **2011**.
52. *External field control of collective coherence in optical lattices of polar molecules*, Institut für Quantenoptik und Quanteninformation, Innsbruck, May **2011**.
53. *Quantum interference induced by external fields in ultracold collisions*, AMO seminar, University of British Columbia, Vancouver, November **2009**.
